

**FEATURES**

- VME J2 bus

**DESCRIPTION**

J3BUS is the board of VME-J2 bus, intended particularly for ZAT-DV racks, having the size 6HE, 19" and intended fro installation of 17 boards maximum (6HE, 4TE). Contains the connectors J2 connected in standard manner in VME bus (D16 ÷ 31, A24 ÷ 31 data and User).

**TECHNICAL DATA:**

| <b>Input parameters</b>          | <b>Min.</b> | <b>Type</b> | <b>Max.</b> | <b>Units</b> |
|----------------------------------|-------------|-------------|-------------|--------------|
| Power supply VME ( 5V )          | 4,875       | 5,1         | 5,25        | V            |
| Power drain from power supply 5V | 3           | 5           | 10          | mA           |
| Working temperature              | -5 °C       |             | +70 °C      | °C           |
| Storage temperature              | -20 °C      |             | +85 °C      | °C           |
| Humidity (non-condensing)        | 5 %         |             | 95 %        | %            |
| Weight                           |             | 500         |             | g            |
| Dimension                        |             | 340 x 130   |             | mm           |
